Here's where partners in the East Sussex Children and Young People's Trust share regular news, achievements and announcements. Click below to find out more.

CYPT Partnerships – what's coming up this term

As we start the new school term the Children and Young People's Trust team at ESCC have put together some new documents to help everyone involved see what's up for discussion, and when the different partnership groups in the CYPT get together. The new meeting schedule shows the different partnerships that make up the CYPT and when they'll be meeting between now and the end of the year. It also has a key contact for each group to help people find their way around. The new CYPT forward planner is more detailed, and lets partners know what the partnerships are planning to discuss in the next few months. The planner will be updated regularly, and a new version made available. These new documents will be available through the Czone website shortly. [Download the partnership meeting dates here](#).

CYPT Conference 2009

Booking is now open for the 2009 Children and Young People's Trust conference. The conference takes the place of the stakeholder forums that the CYPT use to run each year, and will add the chance to learn more about particular services and projects to the usual opportunity for networking and giving your views about the latest priorities. This year's event will take place at the Cavendish Hotel in Eastbourne on the 13 November 2009 . [You can find the event in the Czone events calendar here](#).

Children and Young People's Plan Review 2009

The East Sussex Children and Young People's Plan is the shared plan of the CYPT, and sets out what we intend to do to improve the lives of children and young people across the county. Our current plan covers 2008 - 2011, so we're halfway through. Every year we need to review the plan, and check that we're going in the right direction together. The CYPP Review for 2009 is now complete, and it sets out the key priorities of the CYPT this year as well as reviewing how we'll we're doing on our core aims. [Click here to view the CYPP Review 2009.](#)

Children's Services Data Compendium

Making decisions like what to put in the Children and Young People's plan needs a good understanding of how things are for children, young people and families in East Sussex. Every year we bring together all of the data and statistics that we need to collate into a single report called the Children's Services Data Compendium. For anyone interested in how we measure outcomes, or needing to understand a bit more about what data we hold, this document is invaluable. [You can view or download the 2009 edition here.](#)
