

## Health & Wellbeing

### **Issues:**

- Inform partners about the wider determinants of health & assist them to understand how they can improve health outcomes
- Commission and promote accessible services for all

### **Opportunities:**

- Involving all organisations: small & big in promoting health and well-being
- Do we need a countywide health improvement partnership?
- Audit of health improvement partnerships to be published in Spring / Summer 2009
- Promote the use of Joint Strategic Needs Assessment datasets
- Learning from previous mistakes

### **Actions:**

- Commissioners to work closely with effective local structures e.g. Voluntary Organisations Supporting Older People.
- This will be progressed by NHS Hastings and Rother & NHS East Sussex Downs and Weald's Health Improvement Commissioning Team through the County's four health improvement partnerships
